

KUMKUMBALA RAM

Frontend Engineer | React Developer | UI Engineer | (AEM UI | Performance | Accessibility)

📍 Mumbai, India | 📞 +91 9987344961 | ✉ kumkumbala@yahoo.com | <https://www.linkedin.com/in/kumkum-r-89bb40246/>

PROFESSIONAL SUMMARY

Frontend Engineer with 5+ years of experience architecting scalable, high-performance **React**, **Next.js**, and **AEM**-based enterprise applications for **Automotive** and **Luxury Retail** sectors. Expertise in **Performance Optimization** (improving Core Web Vitals), **Web Accessibility (WCAG 2.1)**, **State Management (Redux/Context API)**, and **REST/GraphQL API** integration. Proven ability to deliver global, multi-region web platforms, successfully reducing page load times and driving user experience across international markets.

TECHNICAL SKILLS

Frontend Engineering

- React.js, Redux, React Hooks, NextJs
- JavaScript (Advanced / ES6+), TypeScript
- HTML5, CSS3, SCSS, Tailwind CSS, Bootstrap
- Responsive Design, Cross-Browser Compatibility

Architecture & Concepts

- Micro-Frontend Architecture
- Component-Driven Development
- SPA Architecture
- Performance Optimization
- Accessibility (WCAG 2.1/2.2)
- SEO Best Practices

Design & Collaboration: Figma, Agile / Scrum

Backend & Full-Stack

- Node.js, Express.js, MongoDB (MERN Stack)

AEM Development

- HTL (Sightly), Custom Components, Editable Templates,
- ClientLibs (CSS/JS)
- CRX/DE , Dialogs (content.xml), Package Manager

API & Data

- REST APIs, GraphQL, Async Data Handling

Tools & DevOps

- Webpack, Babel, Git, NPM, Azure DevOps, Jenkins, CI/CD, Docker

Testing: Jest, React Testing Library, BrowserStack, Unit Testing / TDD

KEY ACHIEVEMENTS

- Improved page performance by 40% through code splitting, lazy loading, and bundle optimization.
- Standardized UI framework across 13 APAC websites.
- Built reusable AEM component library used across multiple enterprise projects.
- Delivered WCAG-compliant applications with high Lighthouse accessibility scores.
- Led AEM page to non-AEM page migration initiatives.
- Developed enterprise e-commerce journeys including PDP, Cart, Checkout, and Payments.

WORK EXPERIENCE

Publicis Sapient | Experience Engineer – L2

Mar 2022 – Dec 2025

PROJECTS: (Key Responsibilities)

1. Enterprise AEM & Frontend Platforms (Automotive & Manufacturing)

Tech Stack: AEM, HTL, React.js, JavaScript, SCSS, REST APIs, Redux, NextJs

- Built and maintained **reusable AEM components** (Card Slider, Dynamic Table, Info Box, Cookie Consent), improving development efficiency across teams
- Standardized typography system across **13 multilingual APAC websites**, ensuring consistency and scalability
- Developed **“Preferred Dealer”** feature with location-based logic and session persistence, improving user personalization
- Implemented **Contact Us system with file uploads** (JPG/PNG/PDF) integrated with **AWS S3**, enabling data tracking and reporting
- Conducted feasibility analysis and implemented **Naver Maps integration** as an alternative to Google Maps
- Led **migration efforts from AEM to non-AEM architecture**, improving flexibility and performance
- Resolved critical **build and dependency issues**, ensuring production stability

2. Enterprise E-Commerce Platforms (Luxury Retail & Beauty)

Tech Stack: React.js, Redux, GraphQL, REST APIs, NextJs

- Developed scalable **React applications** powering core journeys: Login, PDP, Product Comparison, Cart, Checkout, Payments
- Built **reusable component libraries** (carousels, navigation menus, comparison modules), ensuring consistency across global platforms
- Integrated **REST & GraphQL APIs**, analytics tools, and third-party services (ratings/reviews, tag management)
- Improved performance by **30–40%** through: Lazy loading, Code splitting, Memoization, Bundle optimization
- Delivered **WCAG-compliant UI**, improving Lighthouse accessibility scores significantly
- Collaborated with **cross-functional teams (Backend, QA, UX, SEO)** in Agile environments

3. Event Management System (Full-Stack MERN Application)

Tech Stack: MongoDB, Express.js, React, Node.js

- Developed a **full-stack application** with authentication (Login/Signup) and event management features
- Implemented **pagination, API integration, and responsive UI**
- Designed scalable backend APIs and ensured seamless frontend-backend communication

21st SHM Consultants Pvt. Ltd. | Front End Engineer

July 2018 – Mar 2020

For Conferences, Seminars, and Workshops in association with IIT Bombay, BARC, and FICCI Developed responsive, cross-browser web applications for conferences and events using React.js, JavaScript (ES6), HTML5, CSS3, and Bootstrap. Built scalable component-based architectures with Redux and optimized performance using Virtual DOM concepts.

EDUCATION: B. Tech – Computer Science & Engineering, Uttar Pradesh Technical University (UPTU)
